

Time theory

We're born with time, To understand,
The reason why, We're here today.

Until it's time,

To say goodbye, And realise, What life was for.

We're born with time, To understand,
The reason why, We're here today,

Until it's time,

To say goodbye, And realise, What life was for.

The time is dark,

'Cause it's needed to plan our lives, But getting obsessed,
Can make us go astray.

Hear, the noise, of clocks, Ticking the unrelenting second.

Get, your mind, out of time,

So you can find the hidden answer.
